

Noise Pollution and Education

Prof Trevor Cox

EPSRC Centre for Doctoral Training (CDT) in Sustainable Sound Futures

Research

Education

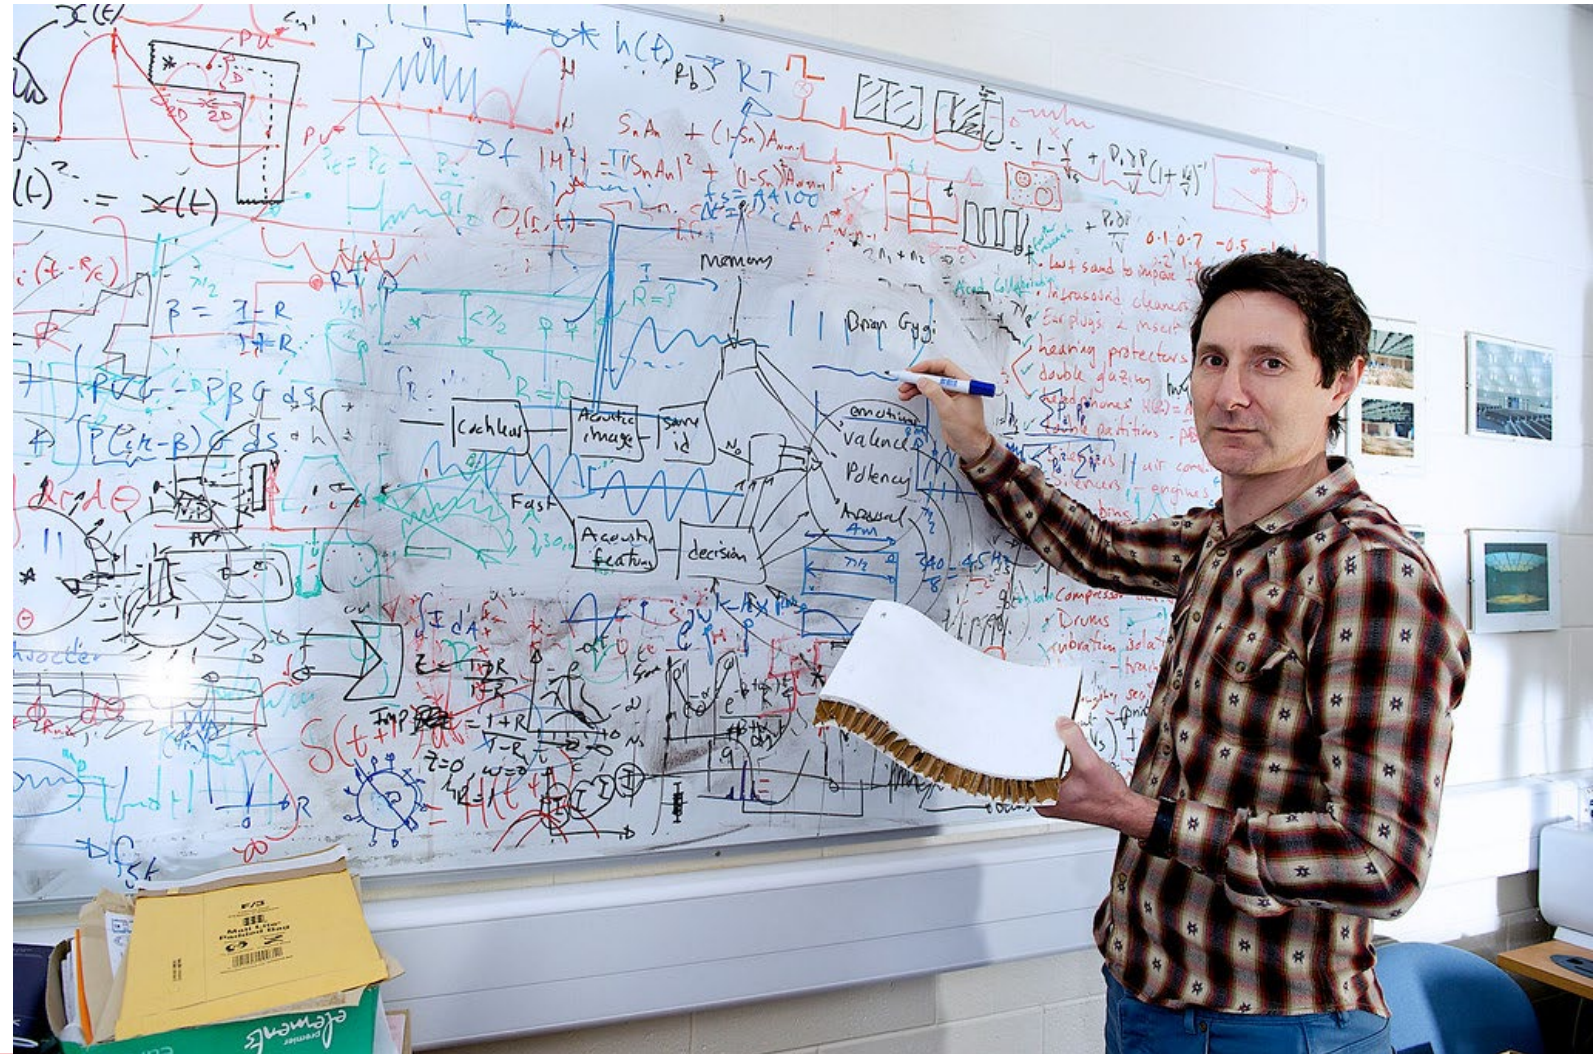

Educating outside acoustics

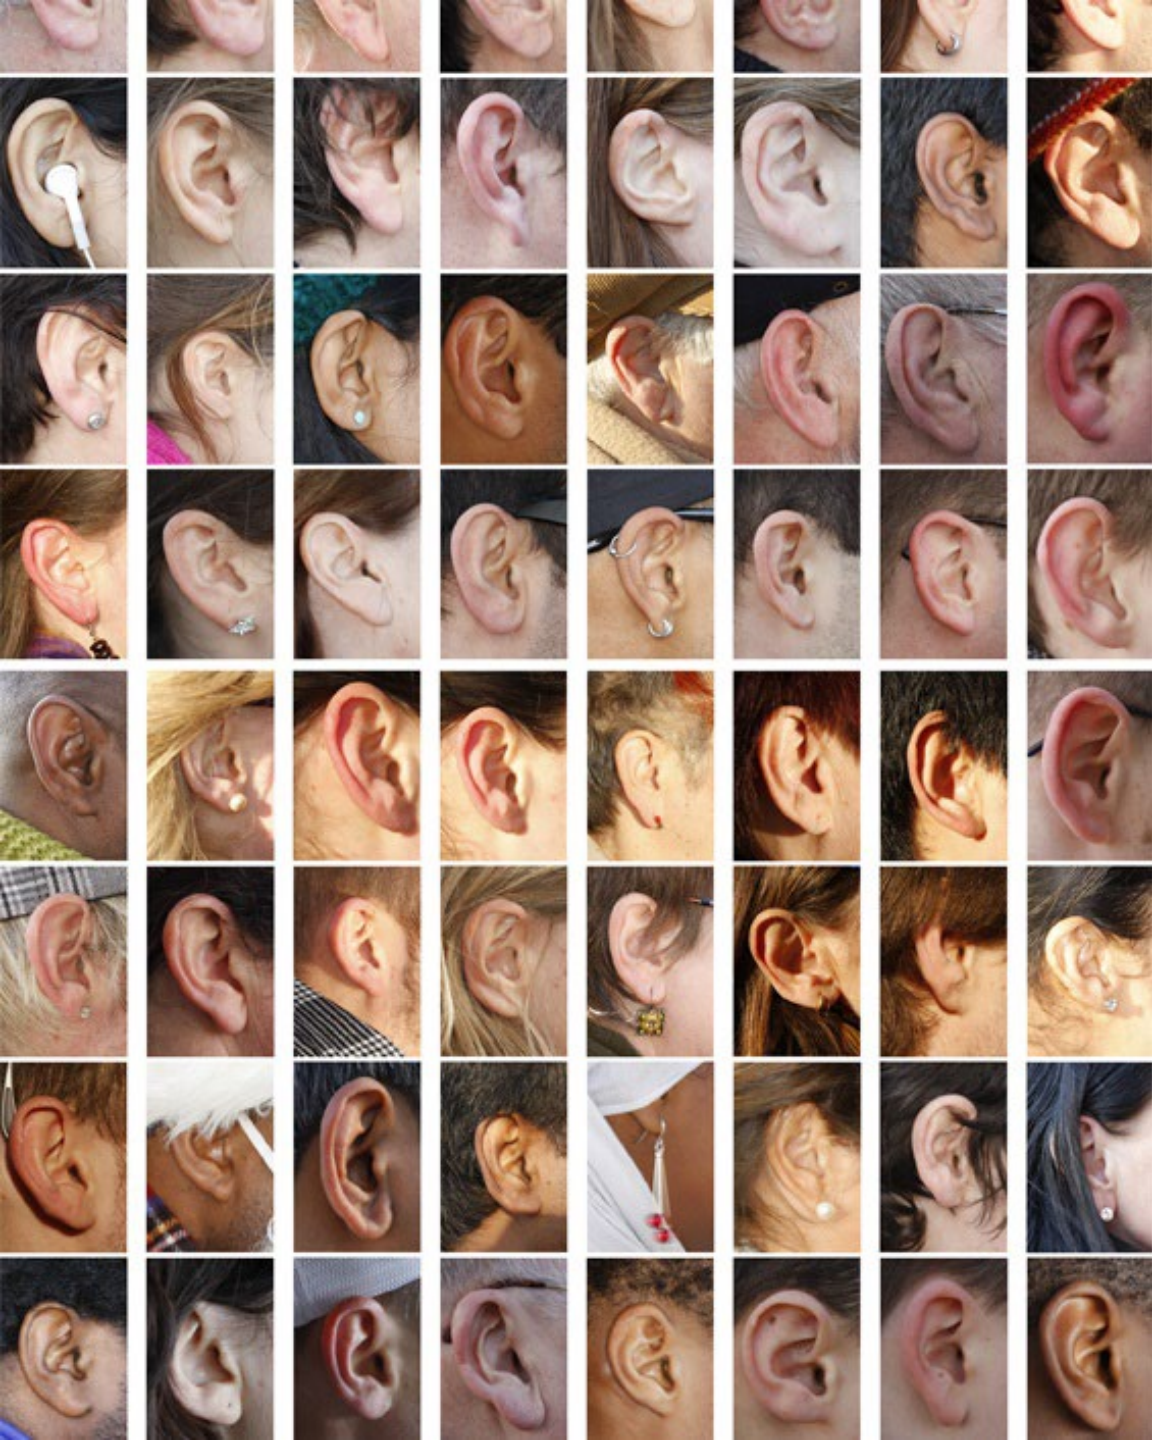

- Public
- Policy makers
- Industry

Education of acousticians

- IoA Apprenticeship
- Degrees, e.g.
 - Acoustics
 - Environmental Health
- IoA Diploma
- Taught masters, e.g.
 - Acoustics
- Research Masters
- PhD

**SOUND
FUTURES**

EPSRC CDT in Sustainable Sound Futures

University of
Salford
MANCHESTER

University of
Southampton

University of
BRISTOL

University of
Sheffield

EPSRC Centre for Doctoral Training (CDT) in Sustainable Sound Futures

- Training 70 PhDs to reduce the harms caused by noise and poor acoustics and forge a more positive sounding future.
 - Focus is on helping industry, public and third sector to create a better sounding future.
 - Four themes:
 - New sources of sound
 - Perception
 - Machine Learning
 - Positive uses of sound
 - 5 cohorts, starting Autumn 2025.
 - Over 50 project partners.
 - Cohort effect (critical mass, peer support etc).
 - **Some home student places still available for autumn 2025: soundfutures.salford.ac.uk**
-
- 

The student journey – broad overview
